

SHAJAH JUNCO

DESIGNER & PROGRAMMER

I've always played with the idea of bringing my imagination to life ever since I was old enough to understand how passionate I am about my craft. Whether my eyes are glued to a new tutorial, or my fingers restlessly roaming a sketchbook, I love to create. Right now I've turned my attention to developing apps and sharpening my javascript skills, I hope to find an opportunity that can advance my skill set by the end of this year.
